

\$25,000 Solar Rebate!

For a limited time residents can now receive rebates of up to \$25,000 on Photovoltaic projects!

Let the power of the sun run your electric meter backwards!

For years, Riverside Public Utilities has encouraged installation of solar electric, or photovoltaic (PV), systems that help reduce your energy demand and help keep our environment clean and green.

And now, we've made that option even better by increasing incentives offered for installing residential PV systems.

For a limited time get **\$3 per watt**, up to **\$25,000** or **50%** of the project's cost, whichever is lower. We'll even provide up to **\$250** towards City of Riverside Planning and Building Safety Fees per installation.

By installing PV systems, businesses and homeowners are taking advantage of the most reliable and environmentally friendly power source we have – the Sun.

For more information call (951) 826-5485, or visit riversidepublicutilities.com

Tune in...

Every Monday night at 8:30pm on **KTIE 590 AM**

And you can also listen in at www.greenriverside.com

Don't forget you can now pay your Riverside Public Utilities bill online using your checking or savings account! Just log on to riversidepublicutilities.com and look for the bill payment link.

Solar Rebates for Your Home

\$3 PER WATT

or \$25,000, whichever is lower
